

# Labor Market Experiences among Not Working, Not-in-School Young Adults in Kentucky

## Who are they?

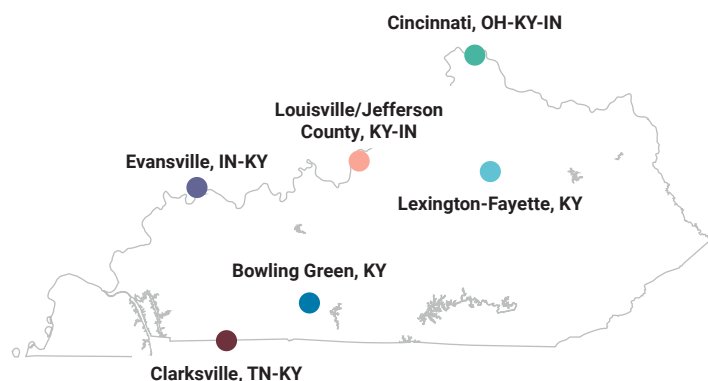

Young adults ages 18 to 24 who are neither working nor in school.

## Why is this a problem?

Economic disconnection can have negative effects for both the individual and the broader economy. For example, it makes it harder for young adults to reenter the labor force and more difficult for employers to fill open job positions.

## How does it happen?

Barriers like a lack of access to affordable child care or transportation and difficulty getting or holding a job due to mental health challenges, disability or experience with the criminal justice system can impede young adults' participation in school or the labor force.

## Opportunities for Community Response

### □ Promote a supportive environment for choosing employment directly out of high school

- Improve the child care ecosystem for families and providers
- Review accommodations for physical disabilities and mental health needs
- Assess whether there are local, entry-level job opportunities that do not require work experience or a college degree
- Create carpooling opportunities or offer shuttles to places of employment

### □ Increase investment in and exposure to career pathways through experiential and project-based learning, internships, and career and technical education

**The SPOT: Young Adult Opportunity Center** provides free career and educational resources for youths and young adults ages 16-24 across the Louisville region. It offers guidance around continued education, starting a career, gaining credentials, and creating a path to independence and self-sufficiency. The SPOT is a partnership of KentuckianaWorks and Goodwill Industries of Kentucky Inc. It is supported by funding from the U.S. Department of Labor, Louisville metro government, and other funders.

Based in Louisville, **TECH-Nique** provides community-centric job opportunities in technology that elevate the voices and experiences of underrepresented groups. After graduating from its programs, participants are invited to become part of the TECH-Nique leadership team, serving as near-peer mentors, facilitators and role models in the next season of programming. TECH-Nique's programs are designed to help graduates emerge as social leaders and entrepreneurs in the technology field.
